TrueMotion® ADJUSTABLE

Lowest (190mm)

Trendelenburg Position (190-660mm)

Full Height (660mm)

Half Height

FEATURES: Low Rider by TrueMotion is an adjustable base built for comfort and care. With one of the lowest entry heights in Australia, it ensures safer transfers and easier access for carers. The Low Rider offers Hi-Lo height adjustment, independent head and foot elevation and advanced positions like Trendelenburg and Zero Gravity for personalised support. Ideal for users, carers, and healthcare professionals, the Low Rider blends healthcare innovation with modern living. It also includes optional vibration massage, memory presets and supports up to 320kg, making it a practical solution for everyday tailored comfort and caregiving.

HEIGHT RANGE: 190mm to 660mm (not inc. mattress)

AVAILABLE SIZES: Long Single (91 x 203), King Single (107 x203)
